THOUSAND TEACHERS Rivers of Beer Will NAMED FOR SCHOOLS Flow Through

Board of Education Accomplishes Immense Amount of Detail Work At Regular Meeting Held Yesterday

MARKING OF PUPILS' PAPERS STANDARDIZED

No More Buildings To Be Erected Except On Land Owned Or Leased By Department, Superintendent Kinney Says

An immense amount of detail work was completed at the regular meeting of the board of education yesterday, including the official appointment or transfer of about one thousand teach ers, the complete elimination of Ger man from the school a of the Territory, the discipline of some teachers and th promotion of others and, especially, the amendment of the rules of the depart ment by which the marking by teachers and the board of examiners of the pa pers of pupils becomes more standard ized; also a committee of review is provided for when the markings of eachers and the examiners differ

"I am very much pleased with the work accomplished today," remarked Superintendent Henry W. Kinney, of the department of public instruction, who provided at the meeting. "Every thing went smoothly and much import work was done, especially in regard to the new rules for marking of credita

All of the commissioners were ent and were greatly interested in announcement made by Superintendent Kinney when the meeting was first call

ed to order. War Changes Situation

Considerable changes have taken place in the situation as to teachersince our last meeting, due to war con ditions," said Mr. Kinney. "This is due to so many men being called in the draft, or who have gone to the main land, and the families left behind have changed their plans. There is no trouble in getting teachers from the main land; the real trobble is in the trans. portation problem. However, I have been notified that the Matson Naviga tion Company may put on a special steamer to accommodate the three hun | Shanghai. ared or more teachers now trying to

"A great many of these teacherthat their contracts would be extend make every effort to get here as soon

Mr. Kinney announced that at the beginning of the season he had provid ed for a margin of thirty five teachers, but now this has been reduced to four This year there have been employed about 100 more teachers from the mainland than is former years. It was aunounced that it is now almost imassible to get men teachers.

of the city and courty." Resolutions operator out the surges of Mayor Fron were possed emi-Il have the effect of prevention the v and water without a e thy of the county school

buildings. school soard Bars German

The first thing done when the board of education for the Territory met at its afternoon session vesterday afternoon was when Superintendent Kinney read a letter from the Hawaiian Vigi lance corps telling of action taken by the executive committee in opposition to the teaching of German in the schools of the Territory by the passage of the following resolution, which was also sent to St. Louis and Oahu Colleges and the College of Hawaii?

"That it is the sense of this committee that those pupils who have partially prepared themselves for entrance ollege examinations in German should be given further instructions in that language for that purpose, but that all other instructions in German should be discouraged."

"I believe in going even further than this resolution requests," assert-Superintendent Kinney, who is him self a German scholar, "and cutting

it out altogether." No Compromise!

Commissioner L. G. Blackman, prin cipal of the Honolulu Military Academy, immediately took up the matter in the most emphatic style and made the official motion that the teaching of German in the public schools be done near with entirely and without any ompromise, stating that to continue its study gives German altogether ab

the even of the pupils.

It was no recenity of being familiar with German ' added Commissioner Plackman, "There are few occasions when are would have to go to the to secure ideas for study, as good trabsinfine can be had of all worth while Rear-Admiral R. M. Doyle, U. S. N., In the future there will be only two

Commissioner Blackman then submit his resulution and included Spanish as the language to be taught in the place of German. There was some or position to making Spanish compulsory such as German was in some cases, and it was made an elective study, with which amendment the resolution passed oppositionally, eliminating the study of

For instance, he points out, by this joint jurisdiction arrangement a defendant arrested in Kailun, Kona, will be a violation of the Hawaii Pro attendance of too much importance in hibition Act; affloogh physicians and or circuit court, without the necessity hibition Act; although physicians and of being brought to monominate drugstores can continue to use alcohol the necessary witnesses and arresting for compounding medicine, for which the necessary witnesses and arresting officers, as will be otherwise required, they are not required to secure a officers, as will be otherwise required, they are not required to secure a se a medical compound and to import it original German scientific text books a permit has to be secured under the requirtions promutgated by the Gov-

ernor. On the eve of the prohibition net going into effect, the question was raised as to whether or not alcohol for fael or as a mixture for paints and other uses of like nature could be sold until the new forms of licenses

are issued. Dealers in this commodity seemed to have taken it that their business was not affected by the new prohibition law, as the kind of alcohol they sell is not usually considered as an intoxicating liquor. This is because such grades as wood and denstured alcohol are often used for the purposes specified. However, there are grades of grain alcohol largely used for me chanical purposes, such as for wireless 'ants and chemical mixtures, which can be made into a passable drink with out danger of instant suicidal results. What is a Drink?

In an off hand decision, Assistant Attorney General Harry Irwin has ruled that the transporting, importing and come within the meaning of the prohibition act, "if such alcohol can drunk before it will kill him as a quick poison." He explains, though, that the distinction regarding the various grades and possible use of the alcohol will have to be determined "by the facts rather than the law" al police could be depended upon to in each case.

It follows that in view of this ruling. high schools, colleges, or other institu tions buying grain alcohol for chem ical tests and uses will have to follow the territorial regulations and secure permits for the burchase or importh tion of the quantity needed. It may follow also that the Hawaii Prohibi tion Act will stop the manufacture of alcohol from molases, he at the Pain sugar mill on Mani, atthough used preciation of the support accorded to parely for mechanical purposes, unless us and to be speak for our successors— demarated at it could not possibly be the American Factors, Limited—a con- used as a beverage. Navy Is Affected

Incidentally, District Attorney Huber tatus as follows: uid in another off-hand decision that "In making this announcement, we be believed that the anyal authorities aish to state that it will be the aim will have to follow the Governor's regulations and secure permits through to successfully continue the business the license inspectors to import grain which we have taken over, in such a neobal for use in the wireless plants. Granting of joint jurisdiction to the territorial courts and officials in the enforcement of the Hawaii Prohibition Act, which went into effect at mid night last night, by congressional amendment of the new law, has been recommended to Attorney General Gregory as the best way violations may be checked and violators prosecuted and punished.

This recommendation has been made to Attorney General Gregory by District Attorney S. C. Huber and Marshal J. J. Smiddy upon the suggestion of Assistant Attorney General Harry Irwin. The recommendation is the feet eral authorities' answer to the attor ney general's query as to how the pro-Mibition law is to be enforced in Ha

waii. Unless some such action is taken and taken almost immediately, the federal authorities and others believe the United States marshal's staff will have to be increased to a force of twenty five or thirty deputies, in order to cope with the situation as it stands today, and provide the needed machinery

If some such action is taken the several district and circuit courts of the Islands and approximately 250 po licemen will be as much responsible for the enforcement of the federal probi bition law as they are for the enforce ment of the territorial liquer statutes. Method Is Easy

Amendment of the Hawaii Prohibition Act, so equal jurisdiction will be given to all territorial courts and officials with that of federal authority, will be a simple and effective expedient. All that will be necessary, it is said, is for congress to add a short section to the prohibition act, appress ly stating that this jurisdiction has been extended jointly to the Territory

with that now imposed in the federal courts and officials. is expressed that Attorney

"Besides," Attorney Irwin says, 'The present requirements of the law will make persons on the outside Is lands backward about giving information regarding violations, as they would not want to become mixed up in a court action which would require their coming to Honolulu as witness

Also," he says, "the Island police will have an interest in arresting vio lators of the law so long as the de feudants can be prosecuted in courts of their district, which they otherwise would not have so long as they think it is a matter for federal attention. In addition, Attorney Irwin asserts that under the present legal require

ments of the prohibition act the Unit ed States marshal's force, now consisting of only two deputies, will be entirely inadequate to control violatios of the law.
It is he who estimates that it would require at least twenty five or thirty deputy marshals to provide a force to

replace the services of the territorial police, unless the services of these police in enforcing the law as expressly required by statute. Huber Trusts Police While District Attorney Huber be drunk so it will make the drinker lieves the assistant attorney general has struck the right solution of the problem of the federal anthorities in gaining the necessary machinery to en-

force the prohibition law, he expressed confidence yesterday that the territoriarrest all violators of the prohibition act in the meantime while the amend ment to the act is being secured from congress. But as has been pointed out before, all yielators of the act arrested now

can be prosecuted in the territorial courts only for the sale or alcoholic liquor. With this the case, violators harged with illegal transportation, importing, exporting or giving away of liquor will have to be prosecuted in the federal court, until congress amends the Hawnii Prohibition Act.

ful if a shipping company could be induced to accept the alcohol for transportation to these Islands, unless an order for transportation had been se cured through the necessity chainels.

The order for transportation author izes and requests the movement of all figuors imported, and is the "scrap
